

THE CENTRAL RECORD.

THIRTY SECOND YEAR

LANCASTER, KY., THURSDAY AFTERNOON, DECEMBER 1, 1921.

NUMBER 24.

LANCASTER HIGH WINS THE LAST GRID GAME

Capt. Cox And His String Of Green And White Close A Successful Season.

The curtain fell on the Leavell field last Wednesday afternoon, and the Lancaster High School football team trotted off the field and were declared to be the winners over the Harrodsburg eleven by the score of 7 to 2.

This was a good game and was witnessed by many spectators, who came out to cheer the Green and White warriors to victory and to see them bring to an end a most successful grid season.

The two teams were evenly matched, and as this closed the season for both elevens, each team was eager to win, but the local lads outplayed and outlasted the visitors and won by the score as given above.

Lancaster High chose to receive the ball and make their first marker in the first three minutes of play with brilliant end runs and forward passes. The local lads completed eleven out of thirteen forward passes during the game. The visitors made their marker of two points when they forced the green and white boys behind their own goal line.

Both teams threatened scoring several times, but at the appointed time the offensive team would strengthen and hold for downs. The following constituted the line up for Lancaster, and they all played their usual good game of foot ball. Bratton, C. G. Castineau, V. Aldridge and Moore, Guards, C. Hutchins, Elliott, Tackles, Robinson, G. D. and Anderson, Ends, son and Cochran looked after the backfield.

This closed a most successful season for the Lancaster High eleven. They played 10 games, winning 6, tying one and losing three, and as we have said before the columns of the Record we would not have lost those three had we been able to have our regular lineup as some of the men were out of the game because of studies.

This year's team has not been a one man's team, as they have all helped each other to win and win fair, and played a hard game each week and should the Sporting Editor of the Record pick "An All Kentucky High School Team" he would refer you to Lancaster High.

Recovering From Operation.

The host of friends of Mr. J. B. Bourne, our popular county clerk are pleased with news from Harrodsburg that Mr. Bourne is rapidly recovering from a recent operation at the hospital there, and expects to return home shortly.

"Cottage Prayer Meetings" To Resume.

The "Cottage Prayer Meetings," which were inaugurated by the ladies of Lexington street, and which were suspended during the progress of the protracted meeting at the Christian church, will be resumed this week. Their regular meeting will be held this Friday evening at 7:30 o'clock at the home of Mrs. Clinton Bastin.

Stork Visits Lancaster.

The stork visited the home of Mr. and Mrs. Benjamin Wood, on Hanville street Friday morning and left with them a dainty little Miss.

Mother and baby are doing fine under the care of "Grandma" Wheeler, while Ben is hanging out the cigars. The little Miss has been christened Florie Lee.

District School

See your parents and grandparents as they went to school in the days gone by, when they were taught to the tune of the hickory stick. This side splitting show will be given at the school auditorium on the evening of Dec. 9th, for the benefit of the "Near East Relief." Come help a good cause and get your money's worth in laughter.

Public Sale.

Household and Kitchen furniture, of Miss Amanda Anderson—Saturday afternoon, at 2:30, Dec. 3, 1921, at her late residence on Maple avenue. Mrs. M. M. Miller, Admox. It. pd.

TOBACCO ELECTION

Date December 12th.

Delegates to District Meetings Will Be Chosen Then, And Those Will Choose Directors Later

MILLION POUNDS MORE SIGNED

Nominations were made in many of the counties of the burley district Saturday of the tobacco growers as candidates for delegates to the district conventions which will select the directors of the Burley Tobacco Growers' Cooperative Association. The distributing and elections committee set December 12th, as the day for the primaries at which those delegates will be elected.

The elections will be held in all the counties at the same time, under the direction of elections committee composed of three members chosen by the county organization and two chosen by the organization committee. The polls will be open from 7 o'clock in the morning until 4:00 o'clock in the afternoon and the growers may vote in person or by mailing their ballots to the election committee in each county, both methods of voting being provided for in the contract.

Voters who mail their ballots, however, must send them to the elections committee in their county so as to reach the committee by the time the polls close on election day, December 12th. Otherwise they cannot be counted.

The elections committee in each county will certify the vote for each candidate to the organization committee.

Ballots To Be Mailed.
Ballots will be mailed to each of the 12,000 growers who have signed the contract and extra copies will be in the hands of each county election committee, so that there will be plenty of ballots to assure an opportunity to vote to every tobacco grower in the district.

The delegates chosen at the primary election December 12th, will select the district directors in district conventions, which probably will be held the day after the primaries. Organization Manager Joseph Passonneau said.

Mr. Passonneau said that reports from many of the counties showed that more than a million pounds of tobacco was added to that already signed up to the association on the first day of the reopening of the books to give outsiders a chance to join.

In Kentucky, Ohio and Indiana counties these signatures were obtained Saturday, and in West Virginia, which has had no opportunity to join so far, a special campaign will be conducted the coming week, which will be led by Clifton Rodes, acting with Hon. Elliott Northcutt, of Huntington, who is chairman for Cabell county, in which Huntington, Harrodsburg and Milton are situated.

Wanted West Virginia In
Chairman Northcutt insisted that the West Virginia growers be given a chance to join, in case the association obtained the 75 per cent necessary to make it go, without West Virginia. His wish is being complied with in the special campaign to be made in that state, which also will take in the county of Mason, adjoining Cabell, which grows considerable burley tobacco.

Some counties in Ohio and Indiana also are to have campaigns previous to the final close of the association's books December 10th, and Organization Manager Passonneau said he expected that the final result likely would be a sign-up of close to 35 per cent of the crop, if it does not exceed that figure.

Growers are not confined to the list of nominated delegates, however, as they may write on the official ballot the names of any persons they prefer as delegates, whether nominated by the committee or not.

Lose Pony.

Horace and Shelton Gullett had the misfortune to lose their saddle and driving pony last week, due to spinal meningitis. "Grand-daddy" Romans offered them his Lexingtoner in return of same but they very graciously refused it.

We will exchange for lumber, any of the following makes of second-hand cars, all of which are in a one condition: Oakland touring, Overland touring, Chevrolet touring, Dixie Flyer touring, Ford touring, Roadster or truck. IMPRESSIVE CEREMONY

Held On Gridiron Before The Game Last Wednesday.

Just before the foot ball game between Lancaster and Harrodsburg on last Wednesday afternoon, Rev. Hart, who conducted the revival services at the Christian church, had the two teams, together with the spectators, assemble in the middle of the field where he said a few words relative to the boy, Benjamin Kavanough, who would not be in the game owing to the fact that he had lost his father, and he paid tribute to the long and faithful services of one of the teachers, Miss Amanda Anderson, who died Wednesday.

This game would have been called off but the relatives of both Mr. Kavanough and Miss Anderson asked that the game be played.

Rev. Hart closed with a prayer.

Broadbush.

Mrs. Mollie Broadbush, aged 77 years, widow of the late T. L. Broadbush, died at her home on the Lexington pike at 2 o'clock Wednesday afternoon, following a short illness. Funeral services were conducted at her late home at 2 o'clock Thursday afternoon by Revs. F. M. Tindler and F. B. Bourland, after which her remains were interred in the Lancaster cemetery.

Mrs. Broadbush is survived by one daughter, Mrs. Wm. Lee, with whom she made her home, and two half sisters, Mrs. Jennie Murphy and Mrs. Woodfolk, of Lexington.

Mrs. Broadbush was a devout Christian, a life long member of the Christian church. She was widely connected throughout the county and a generally beloved woman, and her death is the occasion of deep sorrow among her wide circle of friends and acquaintances.

Anderson

Mrs. Amanda Beazley Anderson, aged 80 years, wife of Mr. John Anderson, died at the family home in Lexington Tuesday, following a brief illness of pneumonia. After funeral services at the grave by her pastor, the pastor of the Woodland Ave. Christian church, Lexington, her remains were laid to rest in the family lot in the Lancaster cemetery.

Besides her aged husband, Mrs. Anderson is survived by four daughters, Mrs. W. R. Morris, of Knoxville, Tenn., Mrs. Bessie, of Kansas, Mrs. T. M. Browning and Miss Bettie Anderson, of Lexington.

Up until a few years ago when they moved to Lexington, this splendid family were life long residents of Garrard county, where they are widely connected, and a legion of friends join in deepest sorrow at the passing of this splendid woman, and extend their sincere sympathy to the stricken family in their great bereavement.

Arnold.

Mrs. Eliza Arnold died at her home on Hanville street at 9 o'clock Wednesday morning, and after funeral services at the grave, conducted by her pastor, Rev. Price T. Smith, of the Methodist church, her remains were interred in the Lancaster cemetery Thursday afternoon. Mrs. Arnold at the time of her death lacked but one day being 73 years old. She had been an invalid for four years, and her death followed a stroke of paralysis suffered but a few days ago.

She was the widow of the late Joseph H. Arnold, who preceded her to the grave several years ago. She is survived by three children, Mrs. Nellie Taylor, of this city, and Messrs. Ralph and James Arnold, of South Carolina. Mrs. Arnold before her marriage was Miss Eliza Anderson of this county, a sister of Mrs. Thompson Arnold, Mrs. Bettie Landrum, and Mrs. E. W. Morrow, of this city and Mr. Ralph Arnold, of Oklahoma, all of whom survive her.

Mrs. Arnold was a lifelong member of the Methodist church, and was a consecrated Christian woman.

The family has the sympathy of the entire community in their bereavement.

Luncheon At Hotel Kengarian.

The wives of the officers of the Lancaster Christian Church gave a luncheon at the Kengarian Saturday in honor of Rev. Hart, who closed a most successful meeting at the Christian Church in this city on Sunday night.

GARRARD CIRCUIT COURT OPENS

With Large Crowd In Attendance.

Judge Charles A. Hardin opened Circuit Court promptly at 9 o'clock Monday morning, with a large crowd in attendance which is always true when Circuit Court and County Court is in Garrard County on the same day. The following Grand Jury was selected and sworn and retired to the Grand Jury room and were instructed as to their duties by Honorable Green Clay Walker, County Attorney.

Grand Jury
Jno. Henry, W. H. Stotts, G. M. Henderson, Bright Herring, George Denny, Cecil Healy, J. K. Sutton, Roy Broadbush, W. B. Burton, Earl Hunt Gueney, R. F. Radston and Jno. Land.

The following petit jury was then selected and sworn:

H. F. Robinson, R. L. Arnold, Robert Castineau, Joe Dunham, Robert Shearer, J. H. W. T. Tom Vantis, Emmerd Clark, W. L. Wynn, Wm. Chistott, W. A. Henderson, J. L. Trumble, Hayden Braxell, Lowery Speaks, J. H. Hamilton, Holman Brown, Carl Prewitt, E. W. Perkins, Loyd Bourne, J. F. Adams, Floyd Curtis, David Sunders, F. B. Marksbury and R. L. Harton.

The petit jury was then dismissed to return again to duty on Thursday. All criminal cases were called and set for trial Thursday afternoon at 1:30 o'clock.

The following civil cases were called and set for trial:

S. V. Vaughn, vs. Lancaster Flour Mills, W. A. Doty, et al. Monday 7th day, Dec. 12th; J. L. Golding vs. I. & N. 8th day, Dec. 6th; R. H. Ratson vs. The Express Co. & G. M. Patterson, et al. 9th day, Dec. 7th; Frank Haeckel vs. A. N. Estes, 10th day, Dec. 8th; T. M. Arnold vs. James Robinson, 11th day, Dec. 7th; R. P. Long vs. Aaron Simpson, 11th day, Dec. 8th; Frank Spohnanore vs. Lancaster Flour Mills, et al. 12th day, Dec. 10th; Jeffery Whitaker vs. J. A. Amos, 13th day, Dec. 12th; John Wynn's Exors. vs. J. A. Rollery, 14th day, Dec. 13th; J. L. Golding vs. James Cox, Davis, Agent, 15th day, Dec. 14th; A. E. Sanders vs. Mela Simpson, 15th day, Dec. 12th.

The equity cases were not set for trial, but several important cases on the equity side of the docket, which are ready to be tried will be heard and disposed of by the court at times during the term when the jury is not engaged in trying cases.

Hibbard.

Just as the rays of the sun began to peep over the hills the life of Mr. Ernest C. Hibbard passed into the Great Beyond, at four o'clock this Thursday morning, he having been a sufferer from a malignant disease of the stomach.

Mr. Hibbard was a young man of sterling quality and was just in the prime of life, being thirty-six years old, a better citizen, a hard working man, a true husband and father never lived than he. He united with the Baptist church in his early boyhood days and was a faithful member, always willing and ready to serve his God.

Mr. Hibbard married Miss Anna Oaks, of this city, on Nov. 15th, 1917 and to their union were born two children, who together with his aged mother and sister, Mrs. E. B. Ray are left to survive this true and dear husband, father, son and brother.

Mr. Hibbard was a member of both the I. O. O. F. and Masonic lodges, of this city, and they will conduct the funeral services at the grave tomorrow, (Friday) afternoon, at 4 o'clock. Burial will be in the Lancaster cemetery.

Service Men Of Garrard County, Attention.

The next meeting of the American Legion of the Herald Sanford Post, No. 35, will be held at the I. O. O. F. Hall in Lancaster, Ky., Tuesday night, Dec. 6th, at 7:30 P. M. This is a very important meeting and all service men of Garrard county are urgently requested to be present. Plans will be discussed at this meeting relative to having an expert here to fill out compensation papers for the disabled service men of Garrard and also make arrangements for a "get together banquet" to be held before the Xmas holidays.

It is the wish that every service man in Garrard county will use every effort to be present.

SECRET ORGANIZATIONS

A Brief Insight Of What They Are Doing.

Many there are who are "agin lodges," and for various reasons, the chief of which the objectors give that "the members depend upon their lodge to take them to heaven, rather than placing their membership in a church." This is an erroneous idea, and entertained only by those who are wholly ignorant of the teaching of fraternal societies.

In the first place, every lodge, or at least everyone of which we have any knowledge is founded upon the teachings of the bible, the bible teaches every altar and their every meeting is opened and closed with prayer. A man cannot belong to a fraternal organization unless he is a believer in a supreme being, and the better Christian he is the better lodgesman he makes. None of them are taught, or is there any intimation that "his lodge will take him to heaven," upon the contrary the church is invariably placed before the lodge, every member is encouraged to identify himself with the church, and at least 75 per cent of the membership are church members.

That fraternal organizations are doing untold good, no one who will take the trouble to observe that part of their work which is apparent to the world at large, can deny.

Take the two leading organizations, the Masons and the Odd Fellows: The Masons maintain an orphan home in Louisville and the Odd Fellows one in Lexington; in these two institutions are more than six hundred children, left by deceased members of the two orders.

These children are clothed and fed comfortably, as comfortably as the average child, are educated and prepared to battle successfully with the world when they are thrown upon their own resources. Nor is their religious training neglected, they have the very best opportunities along this line.

The promoters of these institutions are striving all the time to improve them in every possible way, and to this end in order to provide funds for this purpose, the Masons have just about completed the raising of an endowment fund of \$1,000,000, and the Odd Fellows a similar fund of \$500,000, all of which vast sums are to be devoted to the building of more commodious quarters and providing for the better care of their ever increasing number of wards.

In addition to this the Masons own and maintain an Old People's Home at Shelbyville, Ky., and the Odd Fellows a like institution at Eminence, Ky., where indigent and infirm members of the orders may have good homes and tender care in their old and infirm days.

Nor is this good work confined to these institutions, they were simply taken as an example: the Knights of Pythias, the Elks, Eagles and many others are pursuing splendid work along the same line, all to the end that the orphan may be cared for and the old people may have good homes and good care in the evening of their lives.

Can you conceive of better work, work infused by a more Christian spirit than this?

Then before you criticize or speak harshly of these people or their doings in the future, take the trouble to inform yourself accurately as to just what they are doing, and you will no doubt be less severe on your criticism.

Give Them Credit.

Now that the great fall game, Foot Ball, is over and we have read about the great elevens, both in and out of the State, and we read about the All Kentucky teams, the All Southern teams and the All American eleven, our minds wander back to the Lancaster High School Foot Ball team, which has just closed a most successful season.

Mr. John McRoberts of the firm of McRoberts' Drug Store acted as the Athletic Director of the local team and made a most excellent one, while Mr. Glas B. Carrier and Mr. Wood Wilmot, both gave of their time and acted as coaches of the said team.

They worked right in connection with the Faculty of the Lancaster Schools and we cannot give them too much credit for the work that they did for the team.

Our hats are off to you, gentlemen, for your faithful services well rendered.

Last week for assessing city property. H. C. Hamilton, Assessor.

TOBACCO ASSOCIATION OPENS DOORS.

Time Extended Until Midnight, Dec. 10th.

LET'S MAKE GARRARD 100 PER CENT INSTEAD OF 82 PER CENT.

Acting upon the advice of the County Chairmen, the Organization Committee of the Tobacco Marketing Association agreed to open the doors to allow as many as care to sign the contract and get in on the ground floor, owing to the fact that as many tobacco growers were misled as to the outcome of this movement it was deemed advisable to extend the time until December 10th, at which time the doors will close and all who stay out then will not be able to get in this Association.

The Hurley district went way over and as stated above the few who were left out again have this opportunity of joining.

Garrard County has already gone over in this association and we trust that the few who have held out will sign their tobacco and thus make the plan 100 per cent strong in Garrard instead of 82 per cent that she has signed. There will not be any drives made, according to Judge Lewis L. Walker, who is County Chairman of the organization, but anyone wishing to sign the contract may do so at the county headquarters or see their precinct chairman.

Members of the warehouse committee are busy with the problems presented by the few warehouse companies which have not yet agreed to close their plants pending the permanent organizations, and hope to work out all these problems by the time the association is ready for business.

The committee on temporary operations is preparing data for the use of the directors, when elected, so that they shall be fully informed of the situation throughout the district before they are called upon to assume their duties.

Primary Elections December 12th.

Primary elections in every county in the burley district that has signed up its tobacco to the Hurley Tobacco Growers Co-operative Association were called for Dec. 12, 1921, by the districting and elections committee. Every grower in the district will be mailed a ballot on which will be a list of the names of men nominated as delegates from his county, with a number of blank spaces on the ballot in which he may write the names of other persons in case he desires to vote for others than those nominated.

The elections in the various counties will be held by sections, committees consisting of three members chosen by the county organizations in each of the counties, including the county chairman, and two other members chosen by the organization committee of the association.

Growers may cast their ballots personally by handing them to the elections committee or may mail them to the elections committee so that they will reach the committee by 4 o'clock on the afternoon of election day, Dec. 12th.

The polls will be open in each county at 7 o'clock in the morning and will close at 4 o'clock in the afternoon. The elections committee in each county will count the vote and certify the result to the organization committee of the association.

Besides the ballot sent to each of the 45,000 growers who have signed the contract, additional ballots will be sent to each of the county elections committees, so that all who sign up their crops during the next fifteen days may have opportunity to vote in the selection of delegates to the district conventions.

The delegates chosen in the primaries Dec. 12th, will select the directors at district meetings the date for which will be announced later.

American Legion News

An escaped leopard which terrorized Kansas City and Independence, Mo., was reported headed for Parsons. American Legion men of the city assembled in their clubrooms, cleaned up the old army Springfield used by the firing squad and prepared for defense of the town. It was learned then, however, that a reward of \$50 was offered for the capture of the leopard alive. The guns were stacked and a Texas range of the post set out to rope the animal. He is still after it.

The American Legion post of Lawrence, Ia., has completed a trade with the city authorities whereby the ex-soldiers act as the municipal fire department and the city in turn furnishes a clubhouse and overhead expenses for the Legion men. The service men already have had several baptisms of fire.

An ex-soldier has requested the Oklahoma American Legion to canvas the country for little Kendall, former doughboy of the 140th Inf., 35th Div. "He was my buddy in France. I borrowed a bunch of francs from him once. Winter is coming and he is married and has 2 children. I know he will need the money this winter and I want to pay him, wherever he is," the service man said.

Chauncey M. Depew shocked the American Legion of New York the other day by appearing to ask for his war service medal. He was but a name-sake of the world's greatest after-dinner speaker, however, who was a supply sergeant in the A. E. F.

Colorado and Texas led the lists of new posts chartered by the American Legion during the week ended November 18, according to national headquarters. Eleven posts gained during the week raised the total to 10,872. Other states to add posts were Kansas, Louisiana, Michigan, Minnesota, Mississippi, Oregon and Pennsylvania.

More applications for membership in Kansas City American Legion posts have been received since the national convention than in the preceding twelve months. The increase in the number of Legionnaires in Kansas City as a result of the convention has been estimated at twenty-five hundred.

More than 3,000 unemployed ex-servicemen of Chicago will eat Christmas dinner on "Lightning" this year. With Fred Stone acting as stage manager and the veteran Frank Bacon as his assistant, the American Legion of Chicago is preparing the theatrical benefit.

To advertise an American Legion rummage sale for unemployed soldiers, Mrs. Harry H. Howlitt, wife of a prominent physician of Seattle, donned Charlie Chaplin raiment and paraded the streets with a sandwich board. Clothing from the rummage sale comprised her attire.

The town of McMinnville, Ore., wanted to add a pulmotor to its fire-fighting equipment. When the American Legion post of the town learned that the department had been compelled to give itself as security to raise money for the apparatus, they turned over half their Armistice Day show proceeds for the purchase.

With national prohibition an ac-

complished fact, the W. C. T. U. has turned over to the American Legion the remainder of a war-time fund totaling \$1,000. The Legion will use the money for the immediate relief of sick and wounded service men.

The United States army has been so reduced in number that when the American Legion requested a firing squad from Ross aviation field, 14th, the commanding officer had to haul down a balloon to get the number of men required. The shortage of personnel is so acute that men must be taken off duty to fill such requests.

The American Legion has begun a nation-wide canvass to determine who was the last soldier killed in action. The French government will erect a monument to the last to fall. A Legion post at New Haven, Conn., has put forward the name of Thomas J. Walpole, Jr., killed on the morning of Armistice Day in an outpost engagement.

Gambel, the 60 pound turkey for President Harding's Thanksgiving Day dinner, was sent from Crystal Springs, Miss., in a profusely decorated crate by the American Legion of that city. The whole town of Crystal Springs turned out to bid the bird goodbye. Gambel's chapter one to Washington was M. H. Daily, prohibition director for the state of Mississippi.

The American Legion has 767,739 members in 19,830 posts in the United States. Posts outside of the country are represented in twenty-one foreign lands.

PROFITS MADE IN POOLING COTTON

Four States Organize With Prospect Of Entire Belt Joining

U. S. AIDS IN FINANCING

Dallas, Tex., (Associated Press) Changes in the cotton marketing system are being effected by the growers' Marketing Associations now being federated into the American Cotton Growers' Exchange, according to C. H. Moser, secretary of that organization.

Texas, Oklahoma, Mississippi and Arizona are the charter members of the organization and are all four marketing their cotton successfully through co-operative associations this year, according to Mr. Moser. "North Carolina has completed its State organization and is said to be ready to affiliate," added Mr. Moser. "Organization of growers' associations is being rapidly completed in South Carolina, Georgia, Tennessee, and Arkansas while the preliminary work is being done in Alabama and Louisiana."

Includes All Of Cotton Belt.

"These States include practically all of the cotton area of the United States. Final completion of the organization of the entire South is expected before March 1, 1922."

Some idea of the magnitude of the movement may be obtained from a statement made by Walton Peete, secretary of the Texas Farm Bureau in which he said that the Texas Farm Bureau Cotton Association, a member of the exchange, had as much cotton to sell as any five cotton firms in the world. He further said that this cotton was all graded and classified and ready for immediate delivery. Oklahoma cotton growers have organizations similar to the one in Texas and almost as great in size and importance. The Texas Association has received to date in the neighborhood of 100,000 bales of cotton, according to D. G. Hill, Jr., secretary of the Association. In pursuance to its plan to market in an orderly fashion throughout the year only about 17,000 bales have been sold so far.

\$200,000 More Than Market.

Walter L. Trout, sales manager says that he has been able to obtain for members of the Texas Association from two to three cents a pound more than street buyers have been paying.

This amounts to from \$10 to \$15 a bale, or about \$200,000 increase on sales already made. Should the same ratio be held on the 100,000 bales already received it will amount to more than \$1,125,000. Cotton is still being received, however, at the rate of from 1,800 to 3,500 bales a day at the Dallas office and no one is able to tell at the present time the total amount of cotton which the association finally will handle this year.

Mr. Moser says the association has advanced to members more than \$1,500,000 to date on more than 50,000 bales of cotton, although it is said that less than half of the growers are asking for advances. Forty dollars a bale is now being advanced to growers on delivery of their cotton to the association and prior to the final sale.

While no accurate figures on the cost of selling the cotton can be given until the end of the selling season,

it is estimated that it will not exceed \$1 a bale. Handling charges, such as sampling, weighing, storage, etc., are not included in the estimate made by officials.

Money Saved For Members.

The association, according to Mr. Trout is saving money for its members, through the prevention of indiscriminate sampling and by properly warehousing to prevent weather damage. The association classing rooms are said to be the largest in Texas and the graders are handling from 2,000 to 2,500 bales a day.

Recognition of the business standing of the Texas Association was given by the War Finance Corporation when it lent \$15,000,000 to assist in the movement of the cotton. Texas banks followed immediately after by announcing an acceptance credit of \$1,500,000 and offering a cash loan of \$500,000 which since has increased to more than \$1,000,000.

The work of handling the incoming cotton has become so great that it has become necessary to have night and day shifts for the employees. One set of clerks goes to work at 7 in the evening and works until 6:30 in the morning. Many members of the day force work from 8:30 in the morning until 10 o'clock at night. The office employees 125 persons.

Mary Towing Named Chicago.

In addition to the big city on Lake Michigan there are three Chicagoes and two New Chicagoes. One Chicago is in the mountains of Marion county, Kentucky. Another is quite a town in Harlan county, Ohio; and the other is in Lawson county, Texas. The New Chicagoes are in Indiana and Missouri.

India Land of Mystery.

India is said to be "the burning heart of Asia." That is to say, it has a genius for religion that is unsurpassed. Of the four great faiths which had their genesis in Asia, three were born in India. It is a land of 147 languages. Some of them are spoken by only a few people, but there are ten of these languages, each of which is spoken by thousands more. Of every 100 people in the world, eighteen live in India. The latest census of India gives the population as 315,132,537.

Giving 'Em a Sample.

"Ladies and gentlemen," said the chairman of the evening, "in a few minutes I shall introduce the gentleman who is to address you. It is not my function to deliver a speech at this time, but I shall just use up five or ten minutes so that you may know how good a speech you would have had to listen to were I the speaker and he the chairman."—Detroit Free Press.

Beggars in Constantinople.

And then the beggars! They are at every turn in Constantinople. For the most part they are Armenians. They follow a person for great distances, whining and crying. Some of them carry deformed babies, probably reared as it seems unlikely that any beggar could have a deformed child. Many make their children lie in the street on wet pavements and pretend to be asleep to excite the pity of the passing and thus secure largess.

Traveler's Prayer.

1. Father of this universe out side the territory covered by Volstead, Wayne R. Wheeler and Helms. We humbly ask your forgiveness for the unkind thought we have entertained about the buyers, who have tried to do about prices of our competitors and about being overstocked with one case. And Father we did not want to think the things we did about the merchants who kept us waiting in their store for an hour while they were so busy doing nothing. It was alright for them to do that as it was the only way they could keep us from doing any honest dress work, and then their mental capacity is below zero.

If we said anything unkind about the hotels, Father forgive us, but please make our holes as tough as armor plate, so that we can sleep soundly with them. And make us lay still in bed so we can't turn over and accidentally mash one of them. They have such a beautiful complexion. Tobacco juice brown. And when washed their fragrances is surpassed only by that of Tony's Skunk.

And, Father, give us control of our eyes, so we can direct our eyes towards the lower end instead of the top end of a pair of silk hose especially worn by a lady who insists on boarding a train or street car before us. We would go on first but we know that isn't polite.

Father, give us power not to flirt with married or red-headed women. We know it isn't nice and we don't if we know and we always know in the case of the last named. But it is alright with other unmarried women. They say they don't care.

Father, give us strength to come home to our wives, to act in such a way that she won't be suspicious of us, and give presence of mind enough to destroy that letter in our pocket signed "Maile" before our wives find it.

And, Father, if our last trip is to be towards Hazard, we ask you to take us home with you, as we would have no new experiences by going below and all we ask is a change in territory.—Ames.—Lexington Har-

Co-operative Sales Plan Of Farmers And Breeders.

Lexington, Ky., County co-operative bull sales as a means of supplying a market for surplus animals from purebred herds and furnishing farmers with high-grade sires are being planned for a number of counties in the State, according to cattle specialists at the College of Agriculture. Sales already have been proposed for Wayne and Lincoln counties and it is probable that several others will adopt the idea.

During the past years breeders have not found a ready market for surplus bulls in their herds and in many cases have fed them out for the market as steers, according to the gentlemen. The sales which are being planned are expected not only to furnish a market for these animals but also make it possible for farmers to obtain superior breeding animals at a reasonable price. Breeders having surplus sires will send them to an auction sale to be held at a central point in the county, according to present plans.

GOLD MEDAL PARLETT'S

The world's standard remedy for these disorders, will often ward off these diseases and strengthen the body against further attacks. Three sizes, all druggists. Look for the same Gold Medal on every box and second on individual bottles.

If the American people get much richer some of us will have to get poor again in order to become conspicuous.

And still, if the excitement dies down entirely in Washington there remains the possibility that Mr. Hughes will open his mouth and make another noise.

Home-made Sausage

Three parts of lean meat to one of fat give good results in making sausage on the farm animal husbandrymen at the College of Agriculture say. One recipe recommended by them for good sausage includes these ingredients for every six pounds of meat. One and one-half ounces of fine salt, one-half ounce of finely ground black pepper, and one-half ounce or less of sage to suit the taste. One-half ounce of black pepper and one-fourth ounce of red pepper may be used instead of all black pepper if a "hotter" sausage is desired. Ginger also may be substituted for the sage if desired. The meat may be rolled in the seasoning before the pork is ground or the seasoning added after the grinding.

Meat Curing Success Involves No Secrets.

Curing meat on the farm involves no great secret and can be done successfully if a few general principles are observed, according to animal husbandrymen at the College of Agriculture. Thoroughly cooling the pork to remove all animal heat before the curing starts and trimming off all ragged edges and corners before the meat is placed in the curing solution are the important points to be taken into consideration. Curing by the sugar method is recommended by the specialists as one of the best for Kentucky.

After the meat has been thoroughly cooled for at least 24 hours it should be left in salt from 18 to 20 curing days if it is to be preserved by this method. Curing days are those on which the meat will take salt, this condition not being true in freezing weather. After the meat has been removed from the vat or bin it should be washed in lukewarm water to remove the outer coating of excess salt. At the end of 12 hours the excess salt and water should have dripped from the pork after which the meat may be smoked until it attains an amber brown color.

The mixture for sugar curing is made by preparing a thick mixture of molasses and pepper, one-fifth of which is red pepper. No certain amount of either ingredient is prescribed but enough should be used to make a thick, pasty substance. This

should be spread over the meat which then should be wrapped in parchment paper followed by oiled paper and hung in a dry place where the temperature is fairly uniform and meat protected from flies. If no parchment paper is available newspapers dipped in lard or grease will serve the purpose.

Eczema and Tetter Due To Impurities In The Blood

To Get Absolute Relief You Must Clear Your Blood of Waste Products.

The blood is the means by which all the tissues of the body are directly or indirectly nourished. You will at once realize that unless the blood is pure, some part of the body will become diseased.

Many skin diseases denote with unfailing certainty a weakened and impure state of the blood.

To correct the basic trouble—waste products—the blood must be purified. Don't let your blood. Just clean it out. Nature will do the rest. Pure, rich, red blood nourishes the body and fights off disease.

S. S. S., the standard blood purifier and system builder, is the ideal remedy for skin eruptions. The effect of S. S. S. is to rid the system of the waste products which are causing the trouble. For over 50 years S. S. S. has proven to be of unusual merit. Begin taking S. S. S. today and write for 56 page illustrated booklet, "Face About the Blood"—free.

Personal medical advice, without charge, may also be had by sending a complete description of your case. Address: Chas. Medical Director, Swift Specific Co., 742 S. S. S. Laboratory, Atlanta, Ga. All good drug stores sell S. S. S.

Will some one kindly mention the league of nations occasionally? We don't want to forget the dear thing entirely.

When a fellow becomes too wise for his day we just put him down for a fool and let him rip.

Although he is surrounded by the high dignitaries of the world, they say Mr. Hughes remains as cool as a cucumber. Of course you know just how cool a cucumber is.

All the world seems to be looking to the United States for financial relief. Eventually, when everybody else is taken off, it is possible we may be able to do something for ourselves.

Power Cannot Be Resisted.
No receptacle has ever been made with sufficient strength to resist the bursting power of frozen water.

Egotism.
Always reflect that, of course, some of the services performed for you are not so well done as you could do them.

Oris Raat.
Oris Raat is the root of several species of iris, which, on account of its violet-like smell, is employed in perfumery and in the manufacture of tooth powder.

Oratory of Small Importance.
Jed Thinkins says oratory seems to have a backset, because a man who has eloquence and magnetism can make more money out of some kind of salesmanship.

An Elimination Contest.
More than four million are written in a year in America; written and published. Ten are read. Two are remembered for a few years. One survives a decade—once in a decade. Exchange.

Rats Outwitted by Sawdust.
Insulation by sawdust not only deadens sound, but also defeats rats. When a rat starts to construct a burrow through packed sawdust, the operation no doubt seems easy enough to begin with. But presently the sawdust begins to cave in, filling the hole as fast as the rat can dig, and in the end discouraging the animal completely.

Storm Door.
An outside door on the north or west side of the house, unless protected by an outside storm door, always makes the room in which it opens uncomfortable in severe weather. You can take your screen door and cover it with two thicknesses of burlap, tacked on with copper tacks. Hang it the same way as the screen door and it makes a good substitute for a storm door. In spring remove the burlap and the door is ready for summer duty.

Tree Strang.
Trees and plants display a wonderful strength at times. Some of them will lift a heavy stone which blocks their way or even split a rock, but there is one thing which they can not withstand and that is the stranglehold of another plant which encircles them. A hemlock will soon kill a tree which it takes hold of and in the tropical forests there are many creepers which kill the trees they climb and save themselves by reaching out to neighboring trees.

Receptive.

A girl's mirror may constantly tell her she is beautiful, but it never bores her to have a young man confirm the statement.

Prison Color Schemes.

Color schemes, suggested by an expert as suitable for prisons, are pink for boy thieves, yellow or orange for convicts guilty of long-premeditated crimes and violet and black for burglars. All cells should have blue ceilings, and gray should be avoided.

"Penny Nails."

The term penny in connection with nails is always used in combination with prefixed numerals, such as four-penny, ten-penny, etc., to form an adjective. These adjectives now denote certain arbitrary sizes. Originally, they denoted the price per hundred of nails.

Had Lost the Name.

Little Edward, aged three years, was busy playing with Milworth, who was an afternoon guest. After partaking of some lunch they were about to resume their play, when Edward heard Edward say to Milworth, "Say, kid, what's your name again, I lost it?"

Water and Electricity.

The bureau of standards says if a stream of water from a hose is thrown upon high tension wires at close range there is considerable hazard from the possible conduction of electricity by the stream of water back to the men holding the nozzle. If, however, the stream of water be thrown from a distance such that the water breaks up into drops before coming in contact with the electrical conductors, there is little danger as such a stream of water is nonconducting.

As The Editor Sees It.

The money this government loaned to foreign governments during the war came from the pockets of the people in the form of taxes. It was the people's money.

Now the same old insidious

lobby is at work again in Washington in order to "educate" the people up to the idea of canceling those ten or eleven billions of dollars in debts the allied governments owe to us. It is time for the press of the country to serve plain and unmistakable notice on the government and congress that the people of this country will not stand for a wholesale filching of their hard earned funds.

If the president and congress are sincere in their professed desire to serve the people they will take no such action without first submitting the question to a referendum vote of all of the people. It is safe to predict what the result of such

a vote would be.

We don't like to weary our readers with too frequent references to this question, but some one is trying to get his hand into the public pocket—and this paper objects.

We have a use for a thief or a man who won't pay his debts.

If the nations of the old world are in need of a helping hand this country should extend it to the extent of its ability without material injury to itself.

That can be done in the way of extending the payment of the debts owed to us over a long period of years, provided the people on the other side quit squandering what they have in preparing for another war—and go to work.

If the government of the old world will make a study of the golden rule and apply it to their daily life there will be little need of armies and navies and the vast expenditures they entail.

We suggest that they quit serving the devil for a while and give the Lord a chance to look in.

Then in time they will become prosperous again and will be able to pay their debts without working an unnecessary hardship upon any one.

Are you, by chance, worrying over that "terrible thirst"? Drink a glass of water. In fifteen minutes drink another. Keep on drinking until you have consumed at least two quarts in the run of the day.

It won't harm you, and it will do you a lot of good.

As you become accustomed to large quantities of water you will gradually lose that thirst for something stronger. In time you may even be able

to grin at the other fellow with that longing and furtive look on his countenance.

Then, too, the more water you drink the less medicine you will need. It is the greatest of all aids to digestion or constipation.

Have one on us.

Make it a jolly Christmas and don't worry over the bills. They won't come due until next year. That sounds a long way off, whether it is or not.

Browse around town and look into the stores. You may be surprised at some of the things you find. We've seen a lot of 'em, and we know.

We suspect our local merchants are attempting to make London and Paris jealous—or perhaps they know the discriminating taste of our people and are simply trying to meet expectations.

At any rate, the "berries" are there, in the stores, waiting to be picked.

And believe us, they are worth picking.

Make the most of Christmas. We won't have another one this year.

The birthday of Mrs. J. A. Royston was made very enjoyable, Nov. 28th, when friends and relatives gathered at the hospitable home of her daughter, Mrs. Ed Gaines and Mr. Gaines, to celebrate the occasion.

Mrs. Royston has many friends and is always cheerful and lovable, and was greatly surprised when she came to the dining room to see she had come to her own birthday dinner party.

The home was made attractive with potted plants and the table had for its center piece a bouquet of roses and ferns, and a birthday cake with candles also adorned the table.

A sumptuous dinner was a pleasant feature of the day. The guests were Mr. and Mrs. J. A. Royston, Mrs. Charles Hallow, Mrs. J. F. Hudson, Mrs. Joel Walker and Mrs. Luther Gibbs.

Mrs. Royston, Mrs. Walker and Mrs. Hallow were born in the same year. It was a very happy occasion and the cheer inside, as these friends talked of days gone by, made up for the gloom without.

May this splendid lady live to enjoy many more of these happy events is the wish of her many friends.

Prather-Sebastian.

The marriage of Miss Minnie Prather and Mr. Jesse Sebastian, both of this county, was solemnized last Thursday morning at the home of the bride.

Miss Minnie is the attractive daughter of Mr. and Mrs. Jas. Prather, while the bridegroom is the son of Mr. and Mrs. William Sebastian.

Champ--Stapp.

Miss Rebecca Champ and Mr. Barton Stapp surprised their many friends by going to Jeffersonville, Thursday night, where they were quietly married by Rev. A. W. Arty, pastor of the First Baptist church of that place.

They were accompanied by one of Miss Champ's closest friends, Miss Ruth Carrar, and Mr. Stapp's mother, Mr. Jesse Stapp.

Miss Champ was born in this county, and Mr. Stapp is a native of this county.

They were both graduates of the University of Kentucky, and are both well known in the community.

The marriage was a very happy occasion, and the friends of both families were present to witness the ceremony.

FRANCIS-SMITH

W. H. M. day The Women's Missionary Society always claims the first Sunday in December. A special sermon will be delivered in the morning by the minister and in the evening, J. E. Moody, missionary from India at home on a furlough, will speak. It is hoped that new members and old will be present at both services.

Missionary At Pleasant Grove.

On Sunday, Dec. 4th, Bro. J. E. Moody will be the speaker in the services at Pleasant Grove, Bro. Moody has been in India as a missionary more than seven years and will have many interesting things to tell of his experiences and work there.

The writer will be especially glad to have Bro. Moody with us as we will have the opportunity of renewing a friendship developed while in college together.

In this day when the biggest question before us as a nation is our relation to the other nations of the earth, we should all be very anxious to get all the dependable knowledge we can in regard to the conditions in other lands.

So we earnestly invite the public to hear J. E. Moody at Pleasant Grove next Sunday.

Chas. R. Holder, Minister.

When the average college graduate returns home with his sheepskin in his hand he is prepared to revolutionize the world. But if and if he is wise he begins the revolution first.

The happiest day in the average man's life is when his devoted mother-in-law pays in for a month's visit.

Heat ALL Your House THROUGH ONE REGISTER

Yes, it's just as possible in your home as it has been in fifty thousand others. You, too, may have every room comfortable with balmy healthful heat, reaching every corner by Nature's method of circulation—and all through only one register! It isn't necessary to clutter up your house with pipes, overheat your cellar and incur big bills—not when you can get the

The Original Patented Pipeless Furnace

It can be set up in a day, without inconvenience to you, and will make your home so comfortable in the severest winter weather you will be well repaid.

Your house will be uniformly warm; your cellar will be just right for the storage of fruits and vegetables. Your fuel bill will be less than with stoves that heat only a part of your house.

HERE ARE THE REASONS

The Caloric is the Original Patented Pipeless Furnace—the result of the study of competent engineers to solve the heating problem in the most satisfactory way. That they have succeeded is proved by the fact that the number of Caloric sold on an absolute guarantee of satisfaction is three times greater than any other pipeless furnace.

The cause of this satisfaction lies in the patented and exclusive principle that distinguishes the Caloric from all others. It is not a pipe furnace provided with an extra casing, but a complete revolution in furnace building designed exclusively for pipeless heating.

Come In And See Us

We will show you what these principles are, and you will see what Caloric quality means, why it always succeeds and why imitations cannot accomplish the same results. This you will be in no danger of buying an inferior article, with all the disappointment in later months. Get a copy of the book "Progress," which tells the facts about pipeless heating. If you can't come in, write for it.

WAREHOUSES Will Not Open For The Sale Of Burley

Owners Agree In Conference With Association Committee To Give Time For Election Of Directors And Permanent Organization.

The hundred of the 111 warehouses in warehouse companies represented at the conference with the warehouse committee Tuesday voted to adopt a resolution providing for the closing of the warehouses, so far as the sale of burley tobacco is concerned, pending the permanent organization of the association and the selection of the board of directors. The other eleven did not vote against closing, but later in the afternoon held a conference with the warehouse committee, at which details relating to these particular warehouses were worked out, some of them being in counties in which dark tobacco, as well as burley, is grown and desiring to open their houses to sell dark tobacco only, while remaining closed so far as burley is concerned. Following the conference with the committee all except three other signed the closing resolutions or agreed to remain closed, pending the organization of the association. These three agreed to remain closed until December 15th.

The conference adopted without opposition a resolution proposed by a committee composed of James L. Stone, M. L. Kirkpatrick and Dave Frewill, which was appointed on motion of Dr. Samuel H. Halley, after a number of motions and substitute motions had been offered looking toward the valuation of warehouse property. The resolution offered by the committee provided that the warehousemen offer their property to the association for its use until the board of directors of the association and the owners of the property have had opportunity to work out a method of valuation of the property it is proposed by the association to take over.

Just previous to the adjournment of the conference, which was in session from 10 o'clock until 1, and which assembled again at 2 o'clock, Chairman Ralph M. Barker, of the warehouse committee, expressed the hope no warehousemen in the district would ignore the wishes of the 50,000 tobacco growers who had signed the co-operative marketing contract and that all would keep their houses closed so far as the sale of burley tobacco was concerned, until the association could get ready to do business.

Vice Chairman Stone expressed the same thought, calling attention to the fact that the men in the conference all had been for the co-operative marketing plan and had worked hard for it, making possible by that hard work and devotion to the cause of its final success.

The resolution providing that the warehouses remain closed for the sale of burley tobacco pending the permanent organization of the association was offered by Ray J. H. Jones, of Harrison County, and was the first business considered by the conference. It reads as follows:

"Resolved, that we keep our warehouses closed for the sale of burley tobacco until the Board of Directors of the Burley Tobacco Growers' Co-operative Association is elected and a reasonable time is allowed the association to get organized and ready for business."

The resolution relating to the valuation of warehouse property, as finally reported by the committee named on motion of Dr. Halley, was adopted unanimously. It reads as follows:

"Inasmuch as the Board of Directors of the Burley Tobacco Growers' Co-operative Association will be elected within the next thirty days, and as nothing can be legally done until they are elected, and as we have been assured that the subject of appraisal, buying or leasing of our properties will be taken up as soon as practicable after said Board is elected.

"Be it resolved, that we warehousemen offer to the association the use of our warehouses until the Board of Directors of the association, in conjunction with the owners of the warehouses, work out a fair method of arriving at the value of the various properties by arbitration."

Sweet Daphne's "Hope Box"

By MURIEL BLAIR.

"How very nice of Nellie," said Mary Leland, as she and her best friend Daphne Willis, parted at the village post office after receiving and opening two boxes, exactly alike.

"The time is exquisite," spoke Daphne, gazing with those and those eyes over the neck collar neatly done up in tissue paper with a dainty, smiling face, as if "Nellie" was very thoughtful.

They had been great friends these three. All things, Nellie engaged Mary and Daphne had been close to her of her many acquaintances. She had promised not to forget them when she reached the city on her wedding tour. Now Nellie had redeemed her promise.

"I shall wear the collar at the regular club party next week," said Mary. "You will be there, Daphne?"

"I think not. My mind is not very well, you know, and needs me most of the time. Besides, and Daphne gave a nervous laugh, "I feel I am getting past the party age, Mary."

"Nonsense!" cried her devoted friend. "Twenty-three and you look like sixteen."

"I shall put the collar away in my hope box," said Daphne.

Just here Mary made a pretense of checking her pocket book and while doing so, and glancing the pretty teeth of a faint of the most dreadful rage.

"Daphne Willis," she scolded severely, "if ever I happen across that hope box of yours, I'll—"

Co-operation Lowers Costs Of Marketing

Lexington, Ky.,—Co-operative shipping associations are furnishing one of the cheapest methods whereby farmers of the State can market livestock, according to reports received from organizations in different counties by D. H. Ford, marketing specialist at the College of Agriculture. Not only have the associations saved their members money in placing stock on the market but also they have had a tendency to improve the class of livestock raised in the territory covered by the associations and have developed a spirit of co-operation among farmers of the community.

The co-operative livestock shipping associations are among the most simple of co-operative marketing organizations and constitute one of the easiest methods by which farmers may undertake this form of work, according to Mr. Ford.

During the past year members of the association in Ballard county have made an average saving of approximately \$80 on each of the 77 cars of stock which they have shipped a report from R. H. Wilford, manager of the association, states. The total saving in 77 cars when 16,000 pounds was taken as an average car-

load was more than \$6,000. It cost members of the association an average of about 85 cents a hundred pounds to ship co-operatively whereas it had cost them from \$1.35 to \$1.75 to ship through a local buyer before the association was formed.

Similar results are being obtained by an association recently organized in Union county, the cost of shipping having been reduced about 30 cents on the hundred pounds by means of the co-operative plan. This association has shipped five carloads up to the present time at a cost of from 55 to 15 cents a hundred pounds. Marketing through a local buyer cost farmers in the county from 85 to 75 cents a hundred pounds.

The Oregon Livestock Shipping Association in Webster county, one of the newest ones to be organized already has obtained results which indicate that the association is to be successful in reducing marketing costs. Fifty-nine hogs were shipped in the first carload at a cost of 33 cents a hundred pounds.

By the way, is congress still in session, or are they loafing around in Washington, or have they all gone home? If these birds don't make another noise soon it will look suspicious.

KENTUCKY TURF'S GREAT PROGRESS

In the Last Three Years the Kentucky Jockey Club Has Distributed in Stakes and Purse \$3,479,655.00.

THOROUGHBRED YEARLINGS INCREASE IN VALUE.

[From the Lexington (Ky.) Thoroughbred Horse]

It will be of particular interest to the breeders of Thoroughbreds in this State, and to those persons everywhere who own and are desirous to know the situation in Kentucky and to show the progress that has been made in the last three years. As the value of stallions and broodmares has increased in the quality of their products and the quality of the products has increased in the quality of the parents, a comparison of the present situation with that of three years ago will show that the progress has been made in the last three years.

Noted in the history of the Thoroughbred horse in this State, and to those persons everywhere who own and are desirous to know the situation in Kentucky and to show the progress that has been made in the last three years. As the value of stallions and broodmares has increased in the quality of their products and the quality of the products has increased in the quality of the parents, a comparison of the present situation with that of three years ago will show that the progress has been made in the last three years.

The progress has been made in the last three years. As the value of stallions and broodmares has increased in the quality of their products and the quality of the products has increased in the quality of the parents, a comparison of the present situation with that of three years ago will show that the progress has been made in the last three years.

In the three years of its existence the Kentucky Jockey Club has distributed to the public \$3,479,655, the greater part of which sum was paid to citizens of Kentucky, who own and breed race horses.

Since the year 1918, when the State Race Commission was organized, we have been able to show the progress that has been made in the last three years. As the value of stallions and broodmares has increased in the quality of their products and the quality of the products has increased in the quality of the parents, a comparison of the present situation with that of three years ago will show that the progress has been made in the last three years.

Here are the official figures for the past three years, from 1918 to 1921 inclusive:

1918—	Total number of racing days, 155	Total amount of money distributed, \$1,200,000	The highest purse given was \$25,000 and the lowest \$2,000 and the average was a little more than \$10,000 each.
1919—	Total number of racing days, 174	Total amount of money distributed, \$1,400,000	Purses averaged about \$10,000 each.
1920—	Total number of racing days, 174	Total amount of money distributed, \$1,400,000	Purses averaged about \$10,000 each.
1921—	Total number of racing days, 174	Total amount of money distributed, \$1,400,000	Purses averaged about \$10,000 each.

Hog Killing Delayed

The farmers of the county are a little endeavor to have their hog killing finished and out of the way by Thanksgiving. However, owing to the unusually open weather, this work has of a necessity been delayed this year, no hogs having been killed up to this time, and had to the complaint that the swine are "testing their heads off."
